Make COVID-19 work for you - walks in your local area

Trevor Rosen has received an email from BWV which contains the link below to a great resource for people who like walking but are currently restricted to doing local walks in their area.

It was compiled by Ian Mair who is, or was, the President of Melbourne Bushwalkers Club. It contains links to various walking Apps but also to many downloadable PDF booklets and brochures about local heritage and self guided walks prepared by various different councils in Melbourne. They contain a lot of interesting information.

This might encourage you to explore new walks in your own suburb.

**Some Intuitive Thinking**

In these Covid-19 times, we need to do some intuitive thinking.

Here is a simple test for you. Just 3 questions as follows:

1. A bat and ball cost $1.10 in total. The bat costs $1.00 more than the ball, How much does the ball cost? ---- cents

2. If it takes 5 machines 5 minutes to make 5 widgets, how long would it take 100 machines to make 100 widgets? ---- minutes

3. In a lake, there is a patch of lily pads. Every day, the patch doubles in size. If it takes 48 days for the patch to cover the entire lake, how long would it take for the patch to cover half of the lake? ---- days.

The intuitive answers are 10 cents, 100 minutes, and 24 days.

In fact, the correct answers are 5 cents, 5 minutes, and 47 days.

Take your time and logically think it out. It takes a little bit of reflective thinking. I have had plenty of time to do this due to the CORVID 19 pandemic.

Gordon Proudfoot.
